
11+6+1+3 = O&O ToolBox 21 – the perfect collection of tools for the PC

A toolbox with an even wider range of programs is released

Berlin, 14.01.2009 – O&O Software from Berlin, Germany, is releasing its new collection of outstanding products in the O&O ToolBox 21. It has even gone one step further by adding an entirely new program into already popular and successful package.

Thanks to the O&O ToolBox 21, there'll be no more worries about faltering computers, chaotic information on the home PC or the danger that deleted data might not really be erased. The four products comprising the O&O ToolBox 21: O&O Defrag 11, O&O CleverCache 6, O&O DiskStat 1 and O&O SafeErase 3 provide the Windows home-user with the necessary software to monitor and optimize computer performance as well as to permanently delete any existing files.

O&O ToolBox21 comes with four one-seat licenses made up of O&O Defrag 11, O&O CleverCache 6, O&O DiskStat 1 and O&O SafeErase 3, and is available in stores for EUR 69,90. O&O Software GmbH offers Dealers a very attractive up selling program. Those Dealers interested can find out all about it by contacting the Partner Team at O&O.

The four programs at a glance

O&O Defrag 11 Professional Edition

The multiple award-winning defragmentation program, O&O Defrag 11, optimizes hard disks and merges data fragments twice as quickly as the previous version. The new background defragmentation feature provides automatic protection against heavy fragmentation. For the first time ever, it's possible to defragment entire hard disks and partitions as well as individual folders or files by right-clicking.

O&O CleverCache 6 Professional Edition

O&O CleverCache 6 Professional Edition is a unique tool that optimizes the File Cache Management for Windows Vista, 2000 and XP. This results in an enormous increase in performance, boosting a system's performance at times up to twice its original speed. All this is achieved without the need for additional hardware or any reduction in a system's stability. Once installed, O&O CleverCache 6 is ready to go – no need to reboot or setup any new configuration!

O&O DiskStat 1 Professional Edition

O&O DiskStat allows a user to easily find files and folders that are taking up too much space on a hard disk and causing the computer to slow down. This versatile tool has a user interface similar to that of the Windows Explorer, and provides a range of options for tracking down sources of wasted space on a computer.

O&O SafeErase 3

O&O SafeErase 3 is the best solution for securely deleting confidential data from a hard disk, and guarantees the ultimate protection of a user's privacy. Thanks to the multiple award-winning O&O SafeErase 3, the user is not only able to permanently

delete files, directories, and partitions but all free disk space on the hard disk as well. By deleting free diskspace, no one will ever recover data that was deleted before O&O SafeErase was used.

Prices and availability

The MSRP of O&O ToolBox 21 is EUR 69, 90. Owners of a previous ToolBox version or any individual product contained in O&O ToolBox 21 should ask their Dealers about the upgrade possibilities. O&O ToolBox 21 can be found in all leading computer retail outlets.
