

## O&O Releases O&O ToolBox for PCs

O&O ToolBox is the all-in-one solution for maintaining data protection and keeping Windows-based systems running at the highest level of performance possible. This product suite from O&O contains O&O Defrag V8.0, O&O SafeErase V2.0, O&O DriveLED V2.0, as well as the brand-new O&O CleverCache V6.0.

Berlin, October 17, 2005 – The Berlin-based software company O&O Software released today its O&O ToolBox, a product suite containing the newest versions of four powerful O&O products, with the tagline: "Accelerate! Protect! Monitor!"

The four products contained in this newly revamped bundle address the issues of performance optimization, secure deletion of data, and the monitoring of hard disk and drive operations:

O&O CleverCache V6.0 Professional Edition optimizes the memory and file cache management in Windows. Through its automatic optimization functionality, this software ensures that a system's main memory operates with the highest efficiency possible.

O&O Defrag V8.0 Professional Edition repacks fragmented files together and optimizes hard drives, ensuring the maximum performance possible out of expensive hardware investments simply, quickly, and securely with only minimal effort.

O&O DriveLED V2.0 maintains a permanent check of a system's "health" in the background, warning users of possible hard disk problems before they occur. In this respect, this software contributes greatly to the security and consistent availability of a system's data.

O&O SafeErase V2.0 protects the private sphere of users and deletes files, partitions, and even entire computers permanently with the touch of a button using secure and accepted methods. With this software, users receive the ultimate level of data protection.

The O&O ToolBox with its four products is compatible with Windows XP/2003/2000/NT. The suggested retail price of the O&O Toolbox for Windows Workstations is \$79.00. Users already possessing a single version for one of the products contained in the O&O ToolBox can upgrade to the new O&O ToolBox for \$49.00. O&O Software has licensing options for companies and special conditions for governmental and educational institutions through master agreements.

Interested users can download free trial versions of the products contained in O&O ToolBox from the O&O Software website. Text and product imagery for use by the media are available in the O&O PressCenter at:
